ORDER

The Union's Request for Review of the Acting Regional Director's Decision on the Showing of Interest is denied as it raises no substantial issues warranting review.¹ The Union's Motion for Expedited Consideration is denied as moot.

¹ In denying review, we note that the Union's primary argument is that the Acting Regional Director erred by rejecting its contention that the Petitioner's showing of interest was not valid based on its assertion that employees had revoked their support for the petition. But in *General Dynamics Corp.*, 175 NLRB 1035 (1969), the Board held that a showing of interest is "not subject to attack on the ground that the cards on which it is based have been revoked or withdrawn," and that questions related to a showing of interest "best be resolved on the basis of an election by secret ballot." (internal citations omitted). We find no reason to deviate from well-settled law in this case and find that the Acting Regional Director properly applied this precedent in continuing to process the petition.
